What does a DBS check show? The different levels

There are different levels of DBS check, and the level of check you have determines what information will be revealed.

Here's a rundown of the different levels and the information they reveal:

Basic DBS check: Contains details of any unspent convictions or conditional cautions the applicant has.

Standard DBS check: Contains details of any spent or unspent convictions, cautions, reprimands or warnings the applicant has, as long as they're not protected

Enhanced DBS check: Contains the same information as a standard check, as well as any relevant information held by the applicant's local police force.

Enhanced DBS check with a check of the barred list/s: Contains the same information as an enhanced check, and shows whether the applicant has been barred from working with children and/or vulnerable adults.

If required I authorise the organisation requesting this check, to scan and upload the completed certificate into the online DBS application system to enable a recruitment decision to be made. I confirm that my consent is explicit, fully informed and freely given for the purposes of obtaining a disclosure certificate as stated above.

All information requested is used solely for the purpose of obtaining a DBS certificate and is collected, stored and processed in accordance with the Data Protection Act 1998. We will treat your personal information as confidential and we will not disclose it to any third party except: (i) with your prior agreement; (ii) as necessary for providing you with employment; (iii) as required by law; or (iv) as requested by our client/s to secure employment for you.
